IN THE U.S. PATENT AND TRADEMARK OFFICE

In re application of

Masayuki NAKAE et al.

Conf. 5195

Application No. 10/643,864

Group 2134

Filed August 20, 2003

Examiner C. Brown

ATTACK DEFENDING SYSTEM AND ATTACK
DEFENDING METHOD

INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In compliance with Rules 1.97 and 1.98, and in fulfillment of the duty of disclosure under Rule 1.56, the accompanying documents, copies of which are attached to this statement, are made of record on the enclosed Form PTO-1449.

A concise explanation of the relevance of these items is that these references were cited by the Japanese Patent Office in an Official Action. A copy of the Japanese Official Action in which they were cited is attached hereto, with what is believed to be the pertinent portion enclosed in a wavy line. **An English translation of the enclosed portion is also attached hereto.**

Under the provisions of 37 CFR 1.97(e), the undersigned hereby certifies that each item of information contained in this Information Disclosure Statement was first cited in any communication from a foreign Patent Office in a

counterpart foreign application not more than three months
prior to the filing of this Statement.

Respectfully submitted,

YOUNG & THOMPSON

EXAMINER:

DATE CONSIDERED

EXAMINER: Initial if citation considered, whether or not citation is in conformance with MPEP § 609. Draw line through citation if not in conformance and not considered. Include copy of this form with next communication to the applicant.

* Abstract provided for the Examiner's convenience

NAKAE et al.
U. S. Application No. 10/643,864
Our Ref. 8046-1041

Reason A
Claims 1, 2, 6, 11, and 22-27

Remarks:

In Citation 1, for the purpose of invasion, reference is made to making a collection which includes a network connection accompanying process execution; file input/output, and events relating to process (reduction), including appearance and disappearance related (new process ID).

Claims 3, 4, 7-9, 12-14
Citations 1 and 2

Detecting invasion according to conformance with known invasive patterns is already known as recorded (in the left column of p. 61) in Citation 2.

Claims 5, 10 and 15
Citations 1-3

Remarks:

For example, establishing conditions relating to an access source relative to the file input/output process, is already known, as recorded (in the right column of p. 137) in Citation 3, and as a rule there is nothing exceptional recognized corresponding to the conditions and process relating to the access source.

Claims 28-39
Citations 1-4

Remarks:

As recorded in Citation 4, controlling access relative to an attack is already known.

Reason B
Claim 2
Application 5

Remarks:

There is no exceptional difference in comparison with the claim of [0025] of the following application 5.
